I had formerly paid him \$10 for such a job, but he informed me that the boys had organized a union and had advanced prices to \$15. He said that the 'kids' n the house kicked because the senate boys were making more money than they, and had struck, so it became necessary to organize and have a stated card of rates. 'Don't you see,' he said, that people who want autographs somehow always come to the senate first, and us fellows have been having a soft thing. We have got \$5 for getting names of twenty-six senators, and have given the kids in the house only \$2 for getting \$25 names. When they happen to catch on to a job they get the \$5, of course, and give us \$3 for the senators' autographs, but for every one book they get we get a dozen, and they kicked about it. So we had to agree to pay them as much as we got ourselves. They won't touch a book for less than \$5. There was a kid in the house who cut under them and got some names not long ago for \$3, but when the other boys found it out they got hold of the book and

in the attempt to swim the Niagara Whiripool Rapids is no more reckless or dangerous than to trifle with disease which each day secures a stronger hold and hastens the end of life. This is specially true of rheumastism, neuralgia, sciatica, and nervous headache, which though perhaps slight at first are extreme ly dangerous, and steadily secure a firme grip until at last the agony is unendurable and sudden death brings relief.

These diseases can be cured by the use of Athlophoros which, in connection with Athlophoros Pills, never fails when prop-erly used. Read the following from those who have tested it. Another case of long standing rheuma

tism was cured by the use of Athlophoros; that of Wm. Burns, 204 East High Street. Springfield, Ohio. Said Mrs. Burns upon being asked as to the rheumatism and the cure: "I had been a constant sufferer from inflammatory rheumatism for twenty-three years, until I used Athlophoros, which is two years ago last April, since that time have not had any rheumatism whatever have not had any rheumatism whatever Had you a bad attack at the time you use! Athlophoros? was asked. Yes, my hands were very much swollen and I suffered terribly, but the Athlophoros was very prompt in action and efficient in result, so that it was but a short time after I com-menced its use before I had relief, in fact, menced its use before I had refler, in fact, one bottle has effected the cure. At first the medicine made me very sick, and deaf, and was very hard to take, but I persisted with it and the disease passed off with the bad effects. Do you object to having your statement published? was asked. Not at all I blink it a grand good medicine and all. I think it a grand, good medicine, and

would certainly resort to its use were I ever afflicted with rheumatism again. Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist the Athlo-phoros Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is \$1.00 per bottle for Athlophores and 50c, for Pills.

AND CULTIVATED EX-MANDARIN. A Bachelor is Like a Counterfeit Coin. Marriage Among Namesakes Forbidden - sons and Daughters - Code of Politeness-Education and Morality. The highest ambition of a Chinese gentleman is to have a nice coffin and a fine funeral

They feed their friends sumptuously when dead, but let them take care of themselves the best they could while idl's (belies) of society.

The highest recommendation a man can have is in the fact of his having a wife. A bachelor is likened to a counterfeited coin; he is looked upon with suspicion even by members of his own household Love making is only done three days after marriage. It is not only considered the safest way to get ahead of a rival, but the surest way to get a wife without losing much time.

A previous acquaintanceship between the male and female prevents them from marringe. For this reason a man seldom weds a girl of his own town. They are likewise prevented from marrying kins or name-sakes. Joneses are not allowed to marry oneses nor Smiths to marry Smiths. SONS AND DAUGHTERS. A girl is never considered anything else

in her own father's house than an honored guest. She is neither responsible for the family's debts nor enjoys a share in Daughters depend upon their husbands for fame and fortune, while sons depend upon the parents and upon themselves. A man could borrow money on the strength of his having a son, but no one would advance him a cent if he had a dozen of daughters. Schoolmasters have more power over young than parents. If within three years' schooling the child is not morally as well as intellectually reformed he is sent into another school Parents and spectators instead of the children are held responsible for crimes committed by the latter.

EDUCATION AND COURTEST "It is better to be ignorant and know how to live than to be learned and not know how to live. The principal object of a school is to learn how to live in tran-quility and happiness, and nothing more."

So say all Chinese scholars. It is much lesser crime to steal your neighbor's ox than to steal his dog. The former is simply personal property, while the latter takes the place of a manwatchman. If a Chinaman desires the death of an

enemy he goes and hangs himself upon his neighbor's door. It is a sure cure to kill not only that particular enemy, but members of his entire family will be in jeopardy of losing their lives. When a Chinaman desires a visitor to dine with him he does not ask him to de so, but when he does not wish him to stay

he puts the question, "Oh, please stay and dine with me". The visitor will then know he is not wanted. A rich man's servant gets no salary, yet many are the applicants; while big salaries are paid to the servants of the common people but few make applica-tions. The perquisites of the former

PURE FOOD A NECESSITY.

Adulterated Baking Powders Declared a National Evil-Royal found to be the only absolutely pure Baking Powder made.

Governor Hill, of New York, says: "I have been astore ished lately at the extent of the adulteration of food. It would seem that every thing we eat is adulterated. . . This adulteration of groceries is becoming a national evil-one that we shall have to adopt severe means to check."

The machinery of the law cannot be put to work too speedily or too vigorously against this wholesale adulteration of the things we cat. Both the health and the pockets of the people demand protection.

There is no article of food in general use more wickedly adulterated than baking powder. The New York State Board of Health has analyzed 84 different brands purchased in the State. and found most of them to contain alum or lime, many to such an extent as to render them seriously objectionable for use.

The sale of adulterated baking powders has been prohibited by statute in many localities. It will be in the interest of the public health when their sale is made a misdemeanor everywhere, and the penalties of the law are rigidly enforced.

The only baking powder yet found by chemical analysis to be entirely free from time and about and absolutely pure is the "Royal," This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which totally remove from it the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no other baking powder. The high grade of the Royal Baking Powder has been fully established by the official chemists.

Prof. Love, who made the analyses of baking powders for the New York State Board of Health, as well as for the U.S. Government, certifies to the parity and wholesomeness of "Royal,"

Prof. H. A. Mott, late Government chemist, says: "It is a scientific fact that the Royal Baking Powder is absolutely pure." Dr. E. H. BARTLEY, chemist of the Brooklyn Department of Health, says: "I find the 'Royal' free from lime in any form."

Prof. McMURTRIE, chief chemist U. S. Department of Agriculture, Washington, D. C., says: "The chemical tests to which I have submitted the Royal Baking Powder, prove it perfectly healthful, and free from every deleterious substance." Bread, cake, bisenits, etc., prepared with Royal Baking Pow-

der will be lighter, sweeter, and more wholesome than if made with any other baking powder or leavening agent.
